Thank you for your interest in *Inventions International Inc.* this March 2014.

### Assignment

A U.S. patent is the grant of Intellectual Property rights to an inventor by the United States government. Because the patents by statute have the attributes of personal property, patents and patent applications may be assigned (sold) or licensed (rented) in whole or in part.

### Why Record An Assignment With The USPTO?

It is important to have your assignment document recorded with the USPTO to ensure that the date of assignment is on file to avoid

assignment disputes. Having the assignment recorded protects a buyer against subsequent transfers of title for value, and without notice.

The recording of an assignment document is not a determination by the Patent Office that the assignment
